

# Junior .NET Developer

INDEAVR is a growing company that offers career opportunities in a dynamic industry, encourages professional growth, and values associate contributions. Choosing an employer can be one of the most important decisions you make in life.

## **Some of your responsibilities as a Junior .NET Developer will be:**

- Write the program codes
- Produce detailed specifications
- Test the product/solution in controlled, real situations before going live
- Support, maintain and document software functionality

## **What we look for and will NOT compromise on:**

- Talent, analytical thinking, enthusiasm and willing to be expert in the field of software engineering
- Good experience in software development (6 months – 1 year) with Microsoft .NET, C#, ASP.NET, MVC, Web services
- Knowledge in data structure and algorithms, SQL Server, SharePoint and related Microsoft applications and technologies
- Basic knowledge in HTML 5, JavaScript and CSS 3
- Team player with good communication skills; ability to establish and maintain effective working relationships with clients and INDEAVR personnel

## **What we will value but NOT insist on:**

- Completed or partially completed SoftUni Professional Modules for C# Web Developer and/or JavaScript Developer; Computer Science, Information technology or related degrees

## **INDEAVR will provide you:**

- Busy, dynamic and involving work day
- Experience and performance based remuneration package
- Direct financial and mentorship support for professional and personal development
- Opportunity to work within a culture that actually stimulates knowledge and experience sharing

**INDEAVR**  
Serving the high achievers
